

INSTALLATION AND COMMISSIONING INSTRUCTION

Angle bracket and Pressure plate

for customers on site wind deflectors

Angle bracket for customers on site wind deflectors

Application: Angle **1** with vertical holder **2** for fastening of metal sheet wind deflectors on profile-specific, on-site provided stay bolts (2 pcs / bracket). Suitable for system-specific, visible screwed pressure profiles without cover strips. The load transfer of vertical and horizontal forces to the top level of the glazing system is via a **pressure plate (BS24-3, BS24-4, BS24-5) 5**. The angle bracket is to be horizontally and vertically aligned via 4 adjustment screws **3**.

Material / Finish: aluminium (E6/C-0)
Equipment: incl. adjustment screws **3** and accessories **4**.

VARIANTS

		Hight of the angle bracket	Hight of wind deflectors
151605	BS24-1	H = 175 mm	H = 100 - 200 mm
151600	BS24-2	H = 460 mm	H = 200 - 500 mm

Pressure plate for customers on site wind deflectors

Application: Pressure plate for visible screwed pressure plates without cover strips for the load transfer of vertical and horizontal forces of wind deflectors onto the support plane of the glazing system.

Material / Finish: aluminium (E6/C-0)
Feature: Width (B) according to basic profile depth and the plate profile.

VARIANTS

		B =	
151612	BS24-3	B = 50 mm	
151610	BS24-4	B = 60 mm	
151611	BS24-5	B = 80 mm	

Warranty claims require proper and professional assembly, installation and maintenance in accordance with national regulations and manufacturer's instructions as to SHEV Control Unit.

The wind deflectors must be provided by the customer in accordance with NSHEV product passports.

Strictly observe the information given in the SHEV Control Unit description when commissioning the **Angle bracket** or **Pressure plate**. Details can be found on our website www.aumueller-gmbh.de

Keep this instruction over the lifetime of the product.

Mounting dimensions: Angle bracket and Pressure plate
